PROFESSIONAL SUMMARY

Frontend & UX engineer shipping production React/Next experiences with measurable business lift. Improved web vitals (LCP 3.2s to 1.6s), raised booking conversion by 14%, and cut build-to-release cycles to weekly. Lead 4-6 person squads, pairing with design/PM/backend to deliver accessible, performant UI systems.

CORE COMPETENCIES

Frontend Engineering Design Thinking UI/UX Implementation Responsive & Mobile-first Component Architecture
Accessibility (a11y) Performance Optimization Design Systems Product Discovery UX Research Team Leadership & Mentorship
Testing (Unit/E2E) Collaboration & Communication

EXPERIENCE

Technology Officer

Sep 2024 - Aug 2025 · Remote, Lagos

Crelivio Incorporations · Full-time

- Delivered a 12-month roadmap; launched 3 brand/campaign sites and 2 service portals that grew inbound leads by 22% and lowered bounce by 15% through UX and performance optimization.
- Led a 6-person cross-functional pod; raised sprint predictability to 90% and cut cycle time 18% via backlog refinement, PR SLAs, and release checklists.
- Built a lightweight design system and CI checks (a11y/lint/tests) that reduced UI defects caught in QA by 25% and standardized component reuse across properties.

Frontend Engineer

Sep 2025 - Dec · Remote, Nigeria

Geeky Experts | · Contract

- Shipped a browser-based Integrity & Corrosion Analysis platform (Next 15, React 19, TypeScript, Tailwind 4) covering 7 corrosion models; cut model setup time 30% with metadata-driven forms.
- Implemented typed validation guards and error categorization, reducing submission errors 35% and speeding ops triage.
- Added retries with exponential backoff and real-time API health checks, raising API success to 99% and trimming TTF results 25%.
- Integrated Azure microservices (auth, chatbot feedback, Resend email reporting) and partnered with backend/DevOps to hold p95 latency under 500ms and improve stability.

Frontend Engineer

Feb 2025 - Present · Remote

Klone · Full-time

- Redesigned booking flow end-to-end; improved conversion 12% and cut payment drop-off 18% through clearer steps and error handling.
- Delivered a mobile-first component library with shared patterns, reducing duplicated UI work 30% and accelerating feature delivery.
- Instrumented analytics and experiments (A/B), shipping weekly iterations that lowered time-to-booking 20% and clarified funnel visibility for PMs.
- Drove modern frontend practices (lint/type/test gates, PR templates, Storybook previews) to sustain quality while releasing continuously.

PROJECTS

Professional Barbershop Website

kayverified.com

Next.js, TypeScript, Tailwind CSS, Framer Motion

Built a responsive barbershop site with online booking, real-time availability, testimonials, and mobile-first service catalog; improved booking completion by 20% and delivered LCP at 1.8s on 4G through image optimization and code splitting.

DBDock

dbdock.mintlify.app

TypeScript, Next.js, Tailwind CSS

Built a self-serve database documentation portal with auth, RBAC, and searchable references; shipped schema explorer and quickstart templates. Achieved 95/100 Lighthouse scores and cut onboarding questions by 30% through clearer flows and examples.

EDUCATION

HND Computer Science

2019 - 2023

Gateway Polytechnic, Ogun State

Upper Credit

CERTIFICATIONS

Diploma in Frontend Engineering

AltSchool Africa (2024)

TECHNICAL SKILLS

- JavaScript/TypeScript
- React / Next.js
- State Mgmt (Tanstack/Zustand/Redux)
- HTML5
- CSS3/SCSS
- Tailwind / Bootstrap
- Responsive Design
- Accessibility
- REST/GraphQL
- Node.js
- Express
- Cypress / Playwright
- Jest / React Testing Library
- ESLint/Prettier
- Git/GitHub
- Figma
